

Ekaterina Prianchnikova

CULTURAL PROJECT MANAGER · CURATOR · EDUCATOR

Marseille, France · pryanikate@gmail.com · pryanikate.github.io · LinkedIn: ekaterina-prianchnikova-ab3368271

PROFILE

Cultural and educational project manager, curator and educator working across contemporary art, technology and higher education. Experienced in developing programmes from concept and curriculum design through faculty coordination, mentoring, exhibition production and public presentation. Artist-researcher background brings hands-on knowledge of AI, digital culture, interdisciplinary artistic research and emerging technologies.

CORE EXPERTISE

Cultural Project Management · Programme Development · Curriculum Design · Curatorial Practice · Exhibition Production · Higher Education · Faculty Coordination · Mentoring · Interdisciplinary Collaboration · AI & Emerging Technologies

PROFESSIONAL EXPERIENCE

2022–Present	Laboratory Lead & Lecturer — Cross-Media in Art · Rodchenko School of Photography and Multimedia - Lead an interdisciplinary educational programme connecting contemporary art, emerging technologies and digital media; design curricula, semester assignments, lectures and workshops. - Mentor individual and collaborative projects from research and concept development through technical implementation, reviews, exhibitions and public presentation. - Coordinate educational and production processes across students, invited specialists and the school.
2021–2023	Founding Programme Curator — MA in Technological Art · NUST MISIS - Co-founded the Master's programme and shaped its academic concept, educational objectives, curriculum and learning trajectory. - Recruited and coordinated interdisciplinary faculty; worked with lecturers to develop courses, intensive workshops and assignments within one coherent programme. - Mentored student projects and coordinated semester reviews and public exhibitions, including venue communication, equipment planning, logistics and installation.
2024–2025	Curator & Lecturer — Student Initiatives Platform · Moscow Institute of Physics and Technology (MIPT) - Developed the platform concept and educational structure combining lectures, short courses, mentoring and independent student projects. - Recruited guest lecturers, coordinated course development and maintained an ongoing learning environment through programme communications and research materials. - Curated the final exhibition and supported students in developing and presenting their projects.
2018–Present	Independent Curator · Self-employed - Develop exhibition concepts, narratives and texts; work with artists on project development, selection and display solutions. - Manage exhibition production including budgets, estimates, equipment, schedules, venue and PR coordination, installation and public programmes.
